Summary

Experienced Marine Engineering and Technical Superintendent professional with 9.5+ years of experience in marine technical operations, vessel maintenance coordination, dry dock support, QHSE management, radiation safety compliance, and offshore marine support operations within the UAE marine and dredging industry. Proven expertise in managing technical operations for dredgers, barges, offshore support vessels, and marine equipment while ensuring compliance with international marine regulations, safety standards, and operational requirements.

Skilled in dry dock coordination, vessel maintenance planning, contractor supervision, QA/QC inspections, radiation safety management, FANR compliance, incident management, and project mobilization support. Strong knowledge of marine safety systems, ISM/ISPS compliance, permit-to-work systems, HSE reporting, and technical documentation. Recognized for strong coordination skills, operational reliability, regulatory compliance, and cross-functional collaboration with shipyards, contractors, project teams, and regulatory authorities.

Core Competencies

Marine Technical Operations : Technical Superintendency | Vessel Maintenance | Dry Dock | Marine Engineering Support | Offshore Vessel Support

QHSE & Compliance : QHSE Coordination | Incident Investigation | Permit to Work (PTW) | Lock Out Tag Out (LOTO) | Hazard Identification | Risk Assessment | Safety Audits | HSE Reporting | Emergency Response

Radiation Safety : Radiation Protection | FANR Compliance | Radiation Safety Programs | Leak Surveys | Radiation Inspections | Radioactive Source Inventory Management | Radiation Training Coordination

QA/QC & Inspection : QA/QC Inspection | Mechanical Inspection | Technical Documentation | Compliance Monitoring | Maintenance Reporting | Inspection Coordination | Vessel related inspection

Marine Regulations : ISM Code | ISPS Code | Marine Safety Compliance | Environmental Compliance | Occupational Health & Safety Compliance

Tools & Systems : Microsoft Office | Excel Reporting | Technical Documentation Systems | E-License Systems | Reporting & Compliance Documentation

Leadership & Coordination : Contractor Supervision | Vendor Coordination | Team Coordination | Cross-Functional Communication | Project Mobilization Support

Work Experience

Technical Superintendent | Radiation Protection Officer

March 2026 - Present

Van Oord - UAE

- Coordinate technical operations, maintenance activities, and operational readiness of dredgers, barges, offshore support vessels, and marine equipment.
- Support vessel dry dock activities, repair planning, technical inspections, and maintenance scheduling in compliance with operational and regulatory requirements.
- Monitor vessel certifications, statutory surveys, and class compliance documentation.
- Prepare maintenance reports, technical documentation, expenditure summaries, and operational records.
- Coordinate procurement and sourcing of technical and operational supplies in a cost-effective manner.
- Supervise contractors, maintenance teams, and third-party repair personnel during vessel repair and maintenance activities.
- Support project preparation, equipment mobilization, and offshore operational activities.
- Conduct QA/QC inspections and technical evaluations to ensure operational reliability and maintenance quality standards.
- Ensure compliance with FANR radiation safety regulations and company safety procedures across marine operations.
- Coordinate with regulatory authorities, contractors, operational teams, and project stakeholders regarding technical and compliance matters.
- Ensure vessels remain technically operational and compliant with company management systems, marine regulations, and operational requirements.
- Develop and review dry docking reports, maintenance budgets, and expenditure summaries to support effective planning, cost control, and asset management.

Assistant Technical Superintendent |QHSE Coordinator| Radiation Protection Officer

Van Oord - UAE

January 2019 - March 2026

- Assisted in managing technical maintenance operations for marine vessels and offshore support equipment.
- Coordinated dry docking, preventive maintenance, repair activities, inspections, and operational support tasks.
- Supported procurement coordination, maintenance planning, and vendor communication activities.
- Maintained vessel certification records, class compliance documentation, and statutory survey tracking systems.
- Coordinated project mobilization activities and marine equipment preparation for operational projects.
- Conducted QA/QC inspections and monitored technical maintenance quality standards.
- Supported implementation of QHSE procedures in compliance with integrated management systems and operational safety standards.
- Maintained HSE registers, incident reports, PTW records, safety observations, audit findings, and action trackers.
- Coordinated HSE inspections, incident investigations, corrective actions, and safety compliance activities.
- Assisted in implementing hazard control measures, emergency preparedness procedures, and operational risk mitigation plans.
- Conducted safety inspections during dry dock operations, maintenance activities, and project mobilizations.
- Coordinated with Port Safety & Security departments regarding operational health, safety, and compliance requirements.
- Managed radiation safety activities including radioactive source inventory updates, inspections, leak surveys, and compliance monitoring.
- Coordinated FANR reporting activities through E-License systems and maintained regulatory documentation records.
- Conducted radiation safety awareness sessions and coordinated regulatory inspections and compliance activities.

Mechanical Engineer | Chief Radiation Safety Officer

February 2016 - November 2018

Al Hoty -Stanger Laboratories, UAE

- Managed radiation safety and environmental compliance activities in accordance with regulatory and operational requirements.
- Coordinated radiation safety inspections, compliance monitoring, and operational safety procedures.
- Supervised NDT inspection teams and coordinated operational activities with clients and project stakeholders.
- Conducted field inspections, QA/QC verification activities, and operational safety monitoring.
- Prepared inspection documentation, technical reports, shipping documents, and project dossiers.
- Coordinated with nuclear regulatory authorities regarding radiation safety compliance and operational approvals.
- Supported implementation of occupational health, environmental compliance, and operational safety initiatives.

Graduate Engineer

February 2015 - August 2015

Kerala Minerals and Metals Limited (KMML - TP Unit), Chavara, Kerala

- Supported maintenance , inspection across Ilmenite Beneficiation Plant, Acid Regeneration Plant, Pigment Production Plant, and Utility Plant.
- Performed inspection and condition monitoring of compressors, pumps, rotary kilns, heat exchangers, valves, and pressure vessels.
- Assisted in maintenance planning, equipment troubleshooting, and preventive maintenance activities to improve equipment reliability and operational performance.
- Conducted QA/QC inspections, fabrication assessments, and technical documentation while gaining operational exposure to boilers, water treatment plants, compressor air stations, and other utility systems.

Site Supervisor | QA/QC Assistant

May 2014 - January 2015

Shantima Engineering at KMML Site

- Supervised site maintenance activities, inspection coordination, and operational support tasks.
- Assisted in implementation of site safety procedures and operational compliance measures.
- Maintained operational records, material documentation, and equipment inspection reports.
- Supported hazard identification, safety inspections, and implementation of workplace safety measures.

Achievements & Recognition

- Awarded the Prime Minister Scholarship for Academic Excellence for four consecutive years during the Bachelor of Engineering program (2010–2014).
- Presented a technical paper titled “Auto Pilot Mode Technology in Vehicles” at the Mechanical Engineering Conference organized by the Department of Mechanical Engineering, Udaya School of Engineering, in 2013.

- Earned the National Cadet Corps (NCC) 'A' Certificate, demonstrating leadership, discipline, teamwork, and commitment to extracurricular development.

Education

Bachelor of Engineering (Mechanical Engineering) | CGPA: 7.16

Udaya School Of Engineering – Anna University, Chennai

2010 - 2014
Tamil Nadu, India

Higher Secondary Education | 75%

Dr. C.T. Eapen Memorial Higher Secondary School – Kerala State Board

2008 - 2010
Kerala, India

SSLC | 76%

K.R.K.P.M. Boys & VHSE – Kerala State Board

2007 - 2008
Kerala, India

Certification

- BOSIET – Basic Offshore safety induction emergency training
- ISPS code for Port Facility Security officer – PFSO (BV)
- Understanding ISM
- QA/QC Inspection (Mechanical)
- NEBOSH - International General Certificate in Occupational Health and Safety (IGC).
- IOSH- Managing Safely (Cert. No: 542225) & Supervising Safely (Cert. No: 5570)
- Radiation Protection Officer (Cert. No : WDRTS/RPO-669)
- Radiation Safety (Cert. No: RNA 1605017 - UK Certified; IITNDT/RTS/917 - India)
- Safety Leadership Training
- Hazard Identification training
- Psychological safety training
- Commercial Negotiation Training
- Export Controls & Sanction – EU perspective
- Permit to Work / Lock Out Tag Out
- Confined Space & H2S Training
- Emergency First Aid including CPR & AED
- Firefighting / Fire warden training

Certificate of Participation

- Attended workshops conducted by Bureau Veritas (BV) on Marine Classification, Regulatory Compliance, and Industry Best Practices, with a focus on IACS class requirements and maritime industry standards.
- Participated in regulatory workshops and awareness programs conducted by the Federal Authority for Nuclear Regulation (FANR), UAE.
- Attended the 1st UAE Advanced Non-Conventional NDT Technologies Symposium, Abu Dhabi, UAE.
- Completed Fire Awareness Training conducted by JAHEZIYA under the Abu Dhabi Government.
- Participated in engineering & technical symposium organized by JNTUA College of Engineering, Andhra Pradesh, India.
- Attended National Cadet Corps (NCC) camps including CAWAPC 2006 and Annual Training Camp (ATC) 2007–2008.
